

Restaurant Portico Mar and the Beach Chill-Out Bar

One of my favourite restaurants is Portico Mar especially during the months of July and August when the nearby beach Chill-Out Bar is open 24 hours. We usually book an early evening meal at the Portico Mar restaurant and when we have been sufficiently wined and dined, we then head for the Chill-Out Bar on the beach, where we walk off the delicious food and then chill out in the bar for the entire evening often into the early hours of the following day. I hope you enjoy the experience as much as I have in the past please see information and directions below:
