

## **PARK OF NATIONS Torrevieja**

This park in Torrevieja is well worth a visit (especially if you have children) ... well kept and visually interesting ... the children will love the peacocks, ducks, geese, hens & cockerels which roam freely around the park and the lizards which are in glass tanks. In the centre of the park is a large lake (on which boats can be hired at certain times), a footpath runs all the way around the lake, and the park also has a great children's play area, bouncy castle etc and refreshment kiosk.

## **PARK REINA SOFIA Guardamar**

If you have got young children a visit to one of Guardamar's parks, the **Park Reina Sofia**, is a must. If you haven't got kids, go anyway, you will love it. The Park Reina Sofia is quite large with lots to see. It is easily accessible, and is just a short walk from the beach. Apart from the exotic plants and flowers, there are lakes, ponds, and a waterfall. Among the varied wildlife you will see swans, ducks, peacocks, squirrels and terrapins. This really is a nice park, very relaxing, and a great place to enjoy a picnic. In the summer alongside the park is a small amusement park and if you visit of an evening you will find the street night market selling various tourist gifts and crafts. In the summer all the seafront restaurants are open this makes a special early evening treat for all the family highly recommended.

## **ROAD TRAIN Guardamar**

Guardamar also has a tourist road train which tours the roads of Guardamar del Segura - this only happens however mid-June to beginning of September (and may only be on certain days in the week) - the "train" runs from Engineer Mira all through Guardamar del Segura and if you can't ride a bicycle and are not up to really long walks then this a great way to get around and see a lot more of Guardamar del Segura.

This tourist train is also used on the [Guardamar Path of History tours](#).

## **PATH OF HISTORY TOUR Guardamar**

The Path of History tour itinerary is as follows:

From the Guardamar Tourist Information Office - on the

Guardamar del Segura tourist train

Castle visit (remains of Guardamar fortress), good panoramic view of Guardamar town.
