## **What is the real live escape game?**

At first the “escape from a room” type games were only available virtually, and so probably more than one of you have tried these kinds of game where you have to get out of a basement, a pirate ship, a haunted house, etc.

A few years ago the first adaptations of such games into real-life scenarios were born, where people, "live and direct", without a monitor and a mouse had to escape from a real room in a given time. Today there are many versions set across different scenarios and with different levels of difficulty, but the essence is the same: escape from a room, a place, etc. in 1 hour or less without using force, using logic to help you to find a way out. Participants will have to inspect all objects found in the room for clues, solve puzzles, riddles; they will not need to use physical force or have special knowledge, and use only logic, wit, abstract thought and be a good team player.

The originality of this kind of game is that one gets "inside" the story as if they were in a computer game or they were the stars of a movie, but the action takes place in a real room with real objects, and the decor is planned out down to the smallest detail so that "you believe it". Sensations are experienced much more intensely and the level of adrenaline in the blood is triggered.

**XCAPATE brings you the first real-life escape game in ALICANTE.**

## **How does it work?**

You have to assemble a team of from 2 to 5 people.

You come to the session that has been previously booked through our website.

Our staff will give you all the instructions, explain the rules and solve any possible questions or doubts you may have.

You enter the room which is locked from the outside and ... the game begins. You will have 60 minutes to solve all the puzzles and find the exit.

Do not worry, the Administrator of the game will be observing you at all times to lend a hand if you ask for help.

## Mission 1: Operation “Corleone”

Will you have the courage to face Alicante’s mafia?

The Mafia operates across your city with total impunity and nobody dares to stop them. You and your team belong to a secret elite police group and have received a clue: the fundamental evidence that will allow you to solve the murder of the anticorruption Judge who was in charge of dismantling the most dangerous mafia group in Alicante is hidden in a mafia safe-house.

The undercover agent will give you access to the flat and one hour to find the necessary evidence and get the hell out of there, before things get ugly. The safe-house is also a trap. Once you are inside the exit is blocked and you must find the way to leave by your own means. Gather the evidence and find the way out. The team’s survival depends only on yourselves.

**THE PRICE IS PER GROUP NOT PER PERSON.**

**The price of the game is 50 euros.**
