

Restaurant Nautilus

Restaurant Nautilus was founded on 1975 and from its very beginnings it has been a meeting point for residents and visitors from all around the world looking for an idyllic place beside the seashore, where they can hear the waves and feel the breeze while enjoying a unique view.

There is a wide and varied menu available, from breakfast, snacks and tapas to a full a la carte menu.

Nautilus is in an amazing position, on the edge of the sea. It's fantastic location overlooking the Mediterranean, with views of Torre Vieja.

This is a great place to come and just enjoy the sunshine and chill out with a glass of vino!

You can't want for anything more.

This restaurant offers different types of spaces for the customers, so there is something to sort everyone. There is the dining room suitable for family or business celebrations, a chill-out zone to relax while enjoying the view and a more informal bar zone that looks like the interior of a ship.
