

## Restaurant de Rebate

Great restaurant, in a superb hilltop setting, serving excellent Spanish and International food. The restaurant is set in extensive grounds in the hilltop village of Rebate, some 20 minutes' drive from Quesada. The restaurant itself is furnished in very traditional style and there is an enormous terrace with fantastic views over the countryside. At night everything is candlelit and there is a great atmosphere. There is an old church within the grounds and the owners keep many birds, including ostriches (they cook some dishes with the eggs) and you can walk around the grounds during the day. Once again, this is a popular restaurant, so it is advisable to book.
